CAREER OBJECTIVE

Aspiring AI & ML Engineer seeking to leverage skills in Python, Machine Learning, GEN AI and NLP to develop innovative solutions, contribute to impactful projects, and grow with the organization.

EDUCATION

IIMT UNIVERSITY Pursing Bachelor of Engineering in CSE (AI&ML), Meerut	2022-26
GD GLOBAL SCHOOL Intermediate in PCM, Azamgarh	2020-22
NEW CAMBRIDGE SCHOOL High School, Azamgarh	2018-20

EXPERIENCE

AI/ML Trainee — Benthon Labs Pvt. Ltd.

6 Months | ₹15,000/month

- Worked on real-world AI/ML models using industry datasets
- Built and optimized predictive models improving accuracy
- Performed data preprocessing, feature engineering, and model deployment

AI Developer — R&D Cell, IIMT University

4 Months

- Developed AI-based research solutions and automation tools
- Applied NLP and ML techniques in real-world applications
- Collaborated with teams to build intelligent systems

SKILLS

- Programming & Languages:** Python (Advanced), C, R, SQL, Scala, HTML, MERN Stack

- **AI/ML & Generative AI:** Machine Learning, Deep Learning, NLP, Generative AI, AI Agents, LLM Applications, TensorFlow
- **Backend & APIs:** Django, FastAPI, Flask, REST API Development
- **Databases:** MySQL, MongoDB, PostgreSQL, DynamoDB
- **Automation & Tools:** Web Scraping, Selenium, BeautifulSoup, Automation Tools, MCP (Model Context Protocol), Power BI, MS Excel, Jupyter Notebook, Google Colab
- **Soft Skills:** Problem-Solving, Critical Thinking, Teamwork, Leadership, Adaptability, Time Management

PROJECTS

1. Panchayat – AI-Powered Smart Society Management System

- Built a full-stack platform for managing societies with **Admin & Resident modules**
- Implemented **AI chatbot + RAG-based Bylaw Bot** for context-aware responses
- Developed **Voice-to-Ticket system** (speech → structured complaint)
- Enabled real-time updates using Socket.IO (complaints, notifications)
- Tech: React, Node.js, MongoDB, LLM, RAG, Firebase

2. NeuroPilot – AI Agent System

- Developed an AI agent for executing tasks via natural language commands
- Implemented NLP-based intent detection and automation workflows
- Designed real-time decision-making pipeline

3. TradeMind AI – Stock Market Prediction

- Built ML models for stock trend prediction using historical data
- Integrated analytics and visualization for insights
- Applied time-series forecasting techniques

CERTIFICATIONS

- Certificate of Acknowledgement for Bhartiya Antariksh Hackathon (ISRO) --Sep,25
- NSDC Certificate in Data Science (Skill India) --Jan,25
- Completed DBMS Certificate by NPTEL (IIT Kharagpur) --Mar,25
- Completed Machine learning and Pattern Recognition Certificate by Samatrix, -- Sep'24
- Completed Joy of Computing Using Python Certificate by NPTEL (IIT Madras) -- Oct'23
- Completed Foundation of AI Data Science & Data Analytics Certificate by Samatrix --April'23
